Columbus, OH — Open to Relocation

PROFILE

OSU MIS graduate combining technical fluency with strong analytical and communication skills. Experienced in IT systems support, business operations, and cross-functional collaboration within large organizations. Proficient in SQL, Excel, and data analysis, with a foundation in systems thinking, process improvement, and stakeholder communication. Seeking a Business Analyst, Data Analyst, or IT/Systems Analyst role at the intersection of business and technology.

EDUCATION

B.S. in Business Administration — Management Information Systems · The Ohio State University

Columbus, OH · December 2023

EXPERIENCE

Student Analyst — IT & Systems Support · The Ohio State University

Columbus, OH · Jan 2022 – Jan 2023

- Resolved a high volume of technical and systems issues for a university community of 150,000+ students and staff, applying structured troubleshooting and clear documentation practices.
- Identified and escalated system-wide issues spanning the university network and Wexner Medical Center, acting as a critical link between end users and IT infrastructure teams.
- Delivered professional, client-facing support averaging dozens of cases per shift, consistently earning positive feedback for communication quality and resolution speed.
- Collaborated cross-functionally with IT staff across departments to address organization-wide operational challenges and drive continuous improvement.

Server · Forno Kitchen + Bar

Columbus, OH · Aug 2023 – Present

- Managed complex, multi-variable workflows under pressure in a high-volume environment, building process discipline and operational composure directly applicable to analyst roles.
- Developed strong stakeholder communication skills through daily client-facing interactions, translating complex information into clear recommendations and driving satisfaction outcomes.

Kitchen Leader & Trainer · Raising Cane's

Columbus, OH · Mar 2019 – Dec 2021

- Maintained sub-3-minute service times for 300+ daily customers through real-time process coordination and operational efficiency during peak periods.
- Designed and led onboarding and cross-training programs, improving team performance consistency and reducing ramp-up time for new staff.
